Student Job Title	Jr. Developer

Please indicate the degree to which this co-op student has made an impact (e.g., performance, financial, customer satisfaction, growth, etc.) in your organization during their work term.

Please briefly describe the difference or impact the student made to your team.

Other: Demonstrated meaningful work and has made an excellent impact on the organization

Elya has contributed greatly to our organization over the course of her work term. She has had a significant impact on the code that written through her attention to detail and he focus on writing quality code. She has als had a meaningful impact to our research arm through her efforts in the Highway Video Analysis lab and the Blockchain lab. During the Blockchain lab she created a well designed placemat that greatly assists the audience in understand what Blockchain is and how it can be used. She also provided the branch with a presentation of her findings that sparked significant discussion and resulted in the request for an additional discussion to ensure that the topic is given the time it deserves and provide an opportunity for Elya to demonstrate this technology further.

What competencies, NOT listed on this form, are relevant for this student position?

Overall Evaluation

Excellent: Consistently exceeds expectations and delivers desired outcome of the work.

Additional Comments on your evaluation:

Elya has done an amazing job with us this term and as a result I will be supporting her in a nomination for coop student of the year. She has demonstrated time and again that she is more than ready to be a valuable member of the technology workforce through her coding skills, research skills, attention to detail, and presentation skills. Elya has the ability to understand and take appropriate action on complex problems and ensures that what she produces is of high quality. She collaborates and works well in a team environment and is a leader amongst her peers. I wish Elya all the best in her continued studies and am hopeful that she will one day return to the Ontario Public Service.

Feedback regarding your observation of your student's overall performance

Major Strengths

Technical coding skills, attention to detail, communication skills, collaboration skills, problem solving

Areas for Improvement

Continue expanding technical knowledge and leadership skills
